Americana Pullets: Mar. 9 Mar. 16 Mar. 23 Mar. 30 Apr. 13 Apr. 27

“The Easter Egg Chicken” lays pastel colored eggs. This type has a tail.

It is very important for anyone handling any type of bird or animal to wash their hands thoroughly before preparing food or putting hands in their mouth. It is especially important that children understand the necessity of this sanitary procedure when they are handling poultry. (02/18)

There is a 90% accuracy as to the sex of the chicks. It is difficult to sex day old chicks, so there is a 10% chance your chick will NOT grow to be the hen or rooster that you ordered. The term “*pullet*” refers to a chick that will grow up to be a hen that lays eggs. The term “*cockerel*” refers to a chick that will grow up to be a rooster. The term “*straight run*” means that the chicks have not been sexed at all.

Please take into account when ordering that there is not an absolute guarantee that the chick will be the desired sex.
